## And Of Course; We Do Labels!

The range of products that PM Labels supply to the NHS has grown extensively over the last 5 years.

We never want to forget where we started; supplying **LABELS!**

Labels are still the largest part of our growing business, plain, printed, sheeted, fanfolded and roll labels continue to form the core of our business.

Labels for variable printing continues to grow as the need for more information expands.

A4 sheet labels, for example 14,16,18,21 and 24 labels per sheet make up a large part of our range, but we offer over 30 different configurations all available from stock.

Custom sheets are available in A5, A4 and A3 with a range of different adhesive to suit your application.

Fanfolded labels for dot matrix printers are still held in stock, the popular 70mm x 36mm 2 across label continues to be used in large volumes by many departments.

**If we don't stock it we will make it!**
