

BARCODE LABELS

PM Labels Limited

PM Labels Limited; offering labelling and wristband solutions to the National Health Service

Our Labels Make A Great Read!

With over 20 years experience of supplying the NHS with labels we understand the expectations of the sector, especially barcode labels.

Numerous symbologies are used within the health sector all of which we are able to supply including Code 39, Code 128, Codabar, Interleaved 2 of 5 and Modulus 23. The labels are able to be printed sequentially and can incorporate both alpha and numerical information.

We use high quality materials to ensure accurate first time reading of the information and adhesives that are designed to suit small diameter vials and tubes.

Verifying the printed information is carried out during the production process to ensure accurate sequences.

If you wish to produce your own variable information in house we are able to supply both plain labels and ribbons to suit all UK supplied thermal printers.

We offer a professional and efficient service, we will proof the design to you prior to production to ensure all aspects of the design are correct and then offer a speedy delivery.

To view the whole range of NHS products that we offer please visit www.nhslabels.co.uk Call us on FREEPHONE 0500 503350 and speak to either Andy or Leonie, alternatively email them at andy@pm-labels.co.uk or leonie@pm-labels.co.uk
