

# POLYTHENE BAGS WITH PADS

PM Labels Limited

PM Labels Limited; offering labelling and wristband solutions to the National Health Service

## Spillage? No Problem

A broken or damaged sample tube can present a serious problem. Apart from the obvious health implications the spillage can ruin other sample requests in the same outer bag.

We are now able to offer absorbent pads in both single request bags and the larger outer Pathology Specimen bags.

The pads offer full protection in the event of spillage therefore greatly reducing the risk of further contamination.

The pads meet and exceed the detailed requirements of protecting samples whilst in transit.

The pad's absorbency can vary depending on the quantity of liquid involved in the sample bag.

Please discuss your requirements with our dedicated NHS sales team and we will offer you the most suitable solution to meet your criteria.

Call Andy or Leonie on FREEPHONE 0500 503350 or email them at:
